

SALTSCAPES

canada's east coast magazine

2011 Online Media Planner

Saltscapes.com brings our magazine to life online. With exclusive web-only features, online contests, blogs, and a social networking component that brings together a community for all things Atlantic Canadian. With Web 2.0 functionality such as commenting and rating articles and user-submitted photos and videos, the connection users have with *www.saltscapes.com* will continue to grow and flourish.

Our print publication (and online universe) assures advertisers of unduplicated market penetration and is often used by large brand clients to complete the national buy as national magazines have very limited circulation (and editorial mandate) in Eastern Canada. More than 83% of *Saltscapes* subscribers cite it as their only magazine subscription.

Audience

Saltscapes is the largest lifestyle and only subscriber-based magazine in Atlantic Canada (current readership is 344,729 adults).
